

RIDING BOOTS

2015

## **Expressing talent is my passion.**

My first prototype saw the light of day over thirty years ago. It was the result of pure passion: for elegance, quality, innovation and the world of horse-riding – your world, your passion. With the help of expert staff, and listening to the needs of riders, I have always attempted to combine the great tradition and quality of Italian footwear with a search for perfect technical performance. And I have done so with the use of the most advanced technologies, while never betraying our values and ideals of hand-craftsmanship in every stage of production. This is the secret behind the creation of unique, original boots that satisfy the desires of each customer, be they enthusiasts or professional riders.

By all means ask me for perfection – I will not be content until I have achieved it. Creating riding boots that are always better than the ones before is a constant challenge, an authentic contest in which what is at stake is the very concept of excellence. And this can be achieved only when the passion is authentic.

A close-up photograph of Michel Robert, a man with grey hair, wearing a black equestrian helmet with a white and red design, a black jacket over a white shirt and striped tie, and black riding gloves. He is holding the reins of a brown horse. The background is a blurred white fence.

*A jump forward*

## The triumph of passion and style.

The perfect encounter between two talents – that of the great champion Michel Robert and that of Sergio Grasso – has led to a new line of competition boots. With their unique design and combination of soft leathers and latest-generation super-elastic materials, Michel Robert boots provide greater adherence to the ankle and sensitivity in contact with the horse. The sophisticated and essential design with its distinctive details provides a tailored fit, even for slender ankles and a low instep.

#### QUALITY AND TECHNOLOGY

##### **ProComf® custom ergonomics.**

A solution designed and patented by Sergio Grasso to ensure superb comfort, coupled with absolute ergonomic functionality. The best there could be for riding boots, a highly technical form of footwear.

- 1 - Sole SG-Vibram®
- 2 - Natural leather
- 3 - Steel shank
- 4 - Activated carbons
- 5 - Gel shock absorber
- 6 - Absorbent, breathable, antibacterial

# WALK&RIDE®

**Some follow the beaten track.  
Some make tracks of their own.**

WALK&RIDE: technology and style, the new experience in comfort. The innovative low boot designed for long walks, which can be coupled with its matching gaiter to create a high-performance riding boot. Stunning ergonomic design, superb finishes, quality leather and materials, versatility and lightness. For walking, riding, flying high.

#### QUALITY AND TECHNOLOGY

The innovative **Walk&Ride®** sole is made by **Vibram®**, a world leader in the manufacture of high-performance rubber soles. Features: adapts to the biomechanics of the foot (1); ensures feel and grip on the stirrup (2); self-cleaning in mud (3); grip on heel and toe (4).

SG 70300 - Dinamik

**The Flexy gaiter fits onto the low boot Dynamik, turning it into a riding boot.**

The purchase of very close-fitting gaiters is recommended for perfect wearability. If it does not keep the right position, the Flexy gaiter is however equipped with an elastic cord, to be applied as indicated.
