

RIDING BOOTS

2017

Achieving new milestones, riding the same passion.

Every year we achieve new objectives, and those who choose us achieve them too. These are milestones in terms of performance, comfort and style and they are guaranteed by the excellence of our raw materials, of our artisanal care, and our Italian spirit. The new Energy boot brings new life to the Walk&Ride collection: a solution in step with the needs of a mature market. The Everyone collection once again demonstrates its success, also among those who are starting out in horse-riding. Our products are made even more unique through using crystals from Swarovski® trimmings and other sophisticated materials.

Every year, the passion for riding that I share with Monica and with all the Sergio Grasso team, spreads further around the world, increasingly making it the choice of champions and of enthusiasts at all levels.
